Mentoring:
Do you want to mentor students? Learn more about the revamped [I4C Mentoring Program here](#). You can register for any of the three sessions (October, January, or March).

The I4C Mentoring Program will take place over three six-week sessions across the academic year. The flexibility allows students and partners to engage during the most convenient season for them or stay connected through the year. All partners are invited to participate in the I4C Mentoring Program using the online system Terrapins Connect (People Grove). Mentors are matched with students for 6-7 weeks to engage with students who are traditionally underrepresented in tech. Mentees are typically undergraduate students studying tech who are looking for career support and professional development. Mentors commit to 6-7 weeks of 1:1 meetings. Mentors can join three times a year – October, January, and March. Interest Form: [go.umd.edu/Spr23_Mentoring](#)

Employer Spotlight Clusters:
Market your company to our I4C students. Across a one-week period, we spotlight a group of sponsors in our online engagement platform as well as in our marketing and branding. Spotlights not confirmed by February 6 will be automatically assigned. Digital flyers will be shared across the department. Office hours or drop-in open houses can be hosted during your spotlight.(No more than 4 employers will be spotlighted at a time)

Information needed for Employer Spotlights:
- Virtual Office Hours (2-hour block) requested time (or N/A) if not hosting:
